EDUCATION

B.Tech in Computer Science Engineering G H Raisoni College of Engineering and Management, Nagpur CGPA: 8.45	2023 – 2027 (Expected)
Campus Ambassador Axis VNIT, VNIT Nagpur Represented and promoted technical events and workshops, organized coding competitions and tech seminars.	2024

TECHNICAL SKILLS

Programming Languages:	Java, Go, JavaScript, Python
Frontend Technologies:	React.js, Tailwind CSS, HTML5, CSS3
Backend Technologies:	Node.js, Express.js, Spring Boot, JWT Authentication
Databases & ORM:	MongoDB, Prisma ORM, MySQL
Tools & Platforms:	Git/GitHub, Maven, Postman, Cloud Platforms

PROJECTS

Full-Stack E-Commerce Platform - Developed a complete online store using MERN stack with JWT authentication and secure payment integration. - Implemented responsive UI with Tailwind CSS and mobile-first approach for optimal user experience. - Utilized Prisma ORM with MongoDB for efficient product and order management. - Deployed full-stack application with separate frontend/backend hosting on cloud platforms.	2024
Banking System - Developed Spring Boot banking system modeling accounts and transactions for basic banking operations. - Implemented layered architecture with controllers, services, repositories, and entity/DTO layers. - Built core features including account creation, balance viewing, and fund transfers with transaction records. - Utilized Maven for project management with complete build and test execution capabilities.	2025
Music Player - Designed an offline music player for Android phones that can read and play all songs in device storage. - Implemented NotificationManager and RemoteView for interactive notifications with playback controls. - Generated comprehensive list of all songs on the android device with metadata information. - Developed separate Player GUI with cover photo backgrounds and interactive notification widgets.	2025
2048Go Game - Developed complete clone of 2048 puzzle game using Go programming language. - Implemented core game mechanics including tile movement, merging logic, and score tracking. - Built random tile generation and win/lose condition detection systems.	2025
Personal Portfolio Website - Built responsive portfolio website showcasing projects and technical skills with modern design principles. - Implemented modern CSS Grid and Flexbox layouts for optimal visual presentation. - Deployed using modern web hosting solutions with continuous integration and deployment.	2024

ACHIEVEMENTS

Open Source Contributor

2024

- Regularly contributed to open-source projects on GitHub, enhancing collaboration skills.
- Maintained personal projects with focus on web development and security best practices.

Coding Competition Participant

2023-2024

- Actively participated in multiple coding competitions and hackathons, showcasing problem-solving skills.
- Demonstrated proficiency in algorithms and data structures through competitive programming.

Tech Club Member

2023-Present

- Active member of college tech clubs and developer communities fostering learning environment.
- Collaborated with peers on group projects and technical initiatives.

COURSEWORK

Database Management Systems | Object-Oriented Programming | Data Structures and Algorithms

CERTIFICATIONS

The Complete Web Development Bootcamp - Udemy
Responsive Web Design - FreeCodeCamp

EXTRA-CURRICULAR

Co-founder TEDxGHRCEMN

2025

Organized the Ted-Talk event in the College with Top Achievers of their fields.
